Hi Friends -

You gave money to help elect your local city councilperson. A stop light is out on your corner, so you make a call and it's fixed. That's what you expect, that's how it works. You gave money to help elect your US congressperson. You need your passport renewal expedited, so you make a call and it's done. That's what you expect, that's how it works. And that's what you'd expect if you were a corporation or a "friendly" nation and you made a donation to the Clinton Foundation, because that's how it works.

Bribes are illegal and campaign contributions are messy, so how do you create a legal, tidy high level "pay for play" operation? Set up a charitable foundation as a front, so that if someone finally tries to expose your skullduggery you can defend yourself by pointing to all the unassailably "good works" your foundation supports around the world. And your pals in the media will come to your defense, like the ever reliable MSNBC sycophants and cronies like ABC's George Stephanopoulos, your former White House Communications Director and Senior Advisor for Policy and Strategy, who made his own, formerly undisclosed, \$75,000 contribution to the foundation.

A recent **New York Times editorial** stated, "Mrs. Clinton became involved in State Department deals and negotiations that also involved foundation donors or board members. ... The newly disclosed emails show that some foundation donors and friends, like Crown Prince Salman bin Hamad bin al-Khalifa of Bahrain, used foundation channels to seek access to Mrs. Clinton." That's a lot of smoke for there to be no fire.

So why not preserve whatever paltry appearance of integrity and rectitude they have left, and, right now, just shut the foundation down? "No, no, no," they cry, "if it's shut down, people will die." (People also will die from Hillary Clinton's warmongering, but that's another topic for another newsletter.) Fine. Then why not transfer any genuinely lifesaving programs to some other foundation, like Gates or Ford or Rockefeller, where the money comes from the founders' fortunes, not donors' dollars? But here's the thing: No matter whether they shut it down or cut it back or transfer its operations, what's done, as the saying goes, is done. And nobody loses — except the voters.

Stay cool and keep list'nin', I'm Bob Bernotas and I approved this newsletter.
